MILITIA OF THE UNITED STATES .- We said we would refer to this letter from the Secretary of War to the House of Representa. tives, in a future number of our paper. We will now merely endeavor to give an outline of the plan upon which the Secretary proposes to organize this arm of our defence. Introducing this subject he says:

"The mass of the militia of the United States, as at present organized, does not fall short of one million five hundred thousand men; and every day they are mustered for inspection or exercise abstracts at least one million of dollars from the earnings of labor, without adding any thing whatever to the military efficiency of the country, and too often affecting injuriously the moral condition of those who are assembled for the purpose."

After giving a detailed statement of the expenses, organization, &c., he proceeds to the

" Details of the proposed system:

"It shoud be provided—that each and every free able bodied white male citizen of the respective States, resident therein, who is or shall be of the age of twenty and under that of forty-five, (with the exceptions hereinafter stated,) shall severally and respectively, be enrolled in the militia by the captain or commanding officer of the company within whose bounds such citizen shall reside."

"That the citizens thus enrolled shall constitute the FIRST CLASS, and be denominated the MASS of the militia; and the said MASS shall be divided into divisions, brigades, regiments, and companies."

"That from each regiment of the MASS there shall be formed two companies to serve as light infantry or riflemen; and that to each division of the MASS there shall be attached one company of artillery and one company of horse, formed of volunteers, at the discretion of the commander-in-chief of the State, not exceeding one company from a brigade, and shall be clothed and equipped at their own expense, the color and fashion to be determined by the bigadier general commanding the brigade to which they belong."

"That within - months after the adoption and establishment of this system, there shall be taken from the MASS of the militia, in each state, Territory, and District of the United States, by draft, or by voluntary service, such number between the ages of twenty-one and thirty-seven years, so that the whole may not exceed 100,000 men, and in the following proportions for each State, Tertitory, and District, respectively, to wit: Maine 4,400 men : New Hampshire 2,400; Vermont 2,400; Massachusetts 6,000; Connecticut 2,800; Rhode Island 800; New York 18,000; New Jersey 2,800; Pennsylvania 10,400; Delaware 800; Maryland 3,200; Virginia 6.000; District of Columbia 400; North Carolina 4,400; South Carolina 2,400; Georgia 2,800; Florida 400; Alabama 2,000; Mississippi 800; Louisiana 1,600; Tennessee 4,400; Arkansas 400; Missouri 1,200; Iowa 400; Kentucky 4,400; Illinois 1,200; Indiana 2,800; Ohio 8,000. Michigan 800, and Wiskonsin 400 men. This force to constitute the second class, and be denominated the ACTIVE OF MOVEABLE

"That the ACTIVE OF MOVEABLE force shall be divided into companies and battalions, and be organized as follows: A company shall consist of one captain, one first and one second lieutenant, four sergeants four corporals, one drummer and one fifer, and ninety privates. A battalion shall consist of one major, an adjutant, with the rank of first lieutenant, one quarter-master, with the rank of first lieutenant, one sergeant-major, one quarter-master sergeant, and four companies. And that the said ACTIVE OF MOVEABLE force shall be held to serve as such, and be governed by such rules as may be prescribed, for the period of four years-one fourth of the same in each State, Territory, and District going out annually; the order of succession to be determined in the first instance by lot.

"That there shall be a third classs of the militia of the United States, to be denominated the RESERVE OR SEDENTARY force, which shall be organized in the same manner as the ACTIVE force. And that the RESERVE force. so organised, shall be composed of all those who shall have served the legal time indicated for the second class, and be held to serve for four years in the same; at the expiration of which time they shall return to the MASS. and be subject to no further military or militia duty, unless in cases of invasion, or a levee en masse. And such portions of the ACTIVE force as may go out of the same annually, shall forthwith be considered as belonging to the RESERVE OF SEDENTARY force; and after the termination of the first four years' service of any portion of the RESERVE, one-fourth of that body shall go out of service annually, in the same manner as prescribed for the second class.

"That the deficit occasioned by the transfer annually of one-fourth of the ACTIVE to the RESERVE force, by the discharge annually of one-fourth of the RESERVE, be yearly supplied by a draught, or by voluntary service, from the MASS.

"That for the greater convenience of instruction and discipline of the ACTIVE and SEDENTARY force, the territory of the United States shall be divided into ten districts."

"That the battalions of the ACTIVE and SEDENTARY force shall be numbered at their formation, and a record made of the same; and that they shall take precedence according to the rank of the several majors commanding the same. And further, that when the battalion of two or more districts of the ACTIVE or SEDENTARY forces do duty together, they shall take rank according to the number of their respective districts, considering the lowest number highest in rank. And further, that the order of precedence between the army of the United States and the militia thereof, and between the several classes of the militia with one another, shall be as follows: 1. Troops of the United States. 2. Militia of the United Sinces, in this order, to wit: 1. The LOTIVE

MASS.

We have merely here given the plan upon which the Secretary proposes to re-organize the militia. In our humble opinion it is a like with the same committee, to whom was referred the bill to provide for the repairing of 14th street west, from north H street to Massachusetts avenue, reported the militia. In our humble opinion it is a the same without amendment. good one. Interspersed with the extracts we duties of officers and men,-their pay, objects, movements, divisions, &c., &c. But, as it is now before Congress, and doubting not the superior sagacity of that body will scrutinize locality the use of a room in the city Hall for an armony and think of it well, before acting upon it, we will leave it with them,-premising that so vast an object should be well considered, and acted upon with thoughtful decision.

Dr. Elijah Pratt; DEAR SIR . As I feel it a matter of much public im portance, to possess a means for lessining the terrible suf-ferings from "sore nipples." I have much pleasure in the log side to say that the shield for the preventing and cure of this malady, is better adapted to the purpose than any I have heretofore seen. In the two or three instances I have known them to be used, much satisfaction has been expressed, and have no hesitation to believe it will generally succeed. I am so well persuaded of this at this moment, that I cannot forbear to express a wish that our City, through the various apothecaries, may be supplied with them. W. P. DEWEES.

These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removeing those complaints peculiar to their sex. from want of xercise, or general debitity of the system, obstructions, suppressions, and irregularity of the menses; at the same time, strengthening, cleansing, and giving tone to the stomach and bowels, and producing a new and beatthy. action throughout the system generally. They create appetite, correct indigestion, remove giddiness and nerwons headache, and are eminently useful in those complaints which distress females so much at the "TURN OF They obviate costiveness, and counteract all hysterical and servous affections, likewise afford soothing and permanent relief in fluor albus, and in the most obstinate cases of chlorosis, or green sickness, they invari-ably restore the pallid and delicate female to health and

vigor.

These pills have gained the sanction and approbation of the most eminent physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of communial happiness have been de-feated, those Pills may be truly esteemed a blissful boon. They soon remove all functional debility, and if taken coording to directions, obviate all morbid action

The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherants to that errogeous dectring, that they context the results of the statement of the statem

roneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence Life, Health and Vigor eminate, and vice versa, pain, sickness, isease and death. Not so with Dr. Hunt, whose extensive research and practical experience so eminently qual-Those wishing to employ the remedial power of ify him for the profession of which he has been one of the Sasaparilla, will find in the Compound Sirup one of the most useful members. He contends—and a moments reflection will convince any reasoning mind of the cor-rectness of his views—that the stomach, liver, and assorectness of his views—that the stomach, liver, and associated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial anodures usually prescribed, serve but as foits to cover the ravages of deeprooted maladies. Under these convictions, at the average of very of labor application, the destage ravages of deeprooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing, it is with knowledge of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not prefend to ascribe to Hunt's Botanic PILLS a supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, Hunt's Botanic Pills have never been known raising from the bed of sickness and disease those who have tested their efficacy; and thus amply rewarding Dr. Hunt for his long and anxious study to attain this per-
